1.11.07.

Dear Minister

After the unprecedented welcome that you gave me for which I cannot thank you enough, your help when I became ill was really wonderful. I doubt whether I could have managed the journey back to England if I had to travel in the normal way.

Thanks to you the return trip was uneventful and I was delivered to hospital in England without undue discomfort and am now recovering slowly.

The message from the film "The Power of Good" which seems so admired, that one person can make a difference, appears to have grown far beyond my original actions. From the reception at the Congress Centre it does seem as though the young people of the Czech Republic are really inspired to make the world a better place. If only this message were adopted universally the world would become a much better place.

I feel that I myself have already been the recipient of much kindness which is itself an inspiration.

It is always a pleasure to meet up with my "children" in Prague and share their enthusiasm for life. I hope this will not be my last trip to your wonderful city.

Thank you again and all those concerned and for the present which you gave me.

My son Nick and daughter Barbara would also like to thank you for the assistance given and the thoughtful gifts.

*Cannot thank you enough.
without all your help my return
would not have been possible.*

Nicky Winton
